

Assignment Name: Component Hunt

1. Introduction

In this assignment, I have selected the website Netflix to study its structure. The objective is to break the website into components and understand how different parts are organized.

2. Website Overview

The Netflix homepage is divided into multiple sections such as header, hero banner, content rows, and footer.

3. Components Identified

1. Header (Navbar)

- Netflix logo
- Navigation menu
- Profile icon

2. Hero Section

- Featured movie banner
- Title and description
- Play button

3. Content Section

- Multiple rows of content
- Categories like Trending, Popular

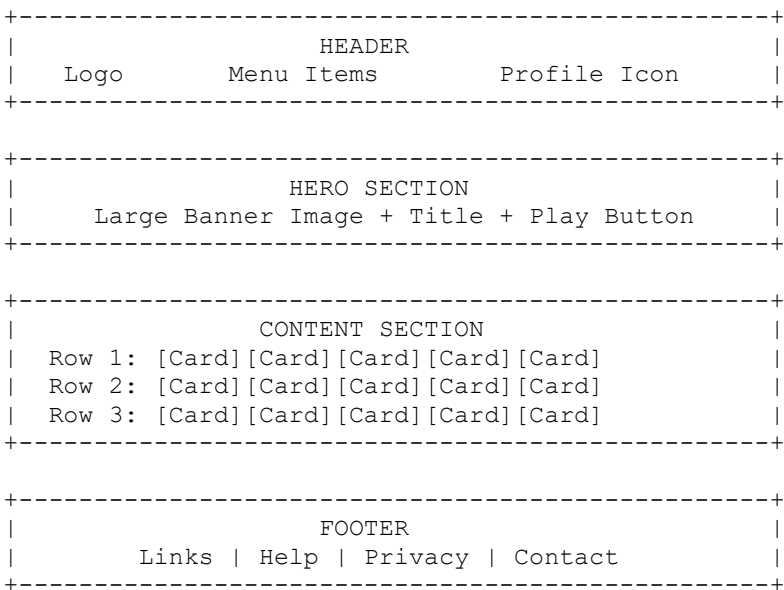

4. Movie Card

- Thumbnail image
- Hover interaction

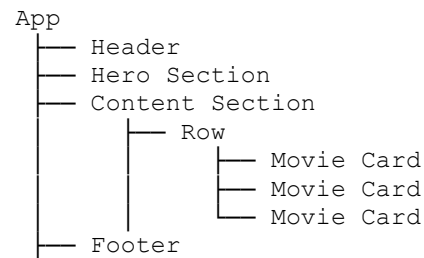

5. Footer

- Links and information

4. Component Structure (Sketch Diagram)

5. Hierarchy Structure

6. Explanation

The website is divided into reusable components.

Each section performs a specific function and is organized in a structured way.

Movie cards are reused multiple times in different rows, making the design efficient.

7. Conclusion

Breaking a website into components helps in better understanding of design and development. It improves reusability and simplifies the building process.
